

Provost's Awards for Faculty Excellence and Impact: Call for Nominations

The Office of the Provost is pleased to announce six categories for the Provost's Awards for Faculty Excellence and Impact (formerly the Provost's Award for Scholarly Activity). Each award recognizes faculty who have exemplified excellence in their research, scholarly or creative works (e.g., arts, music), leadership in diversity equity and inclusion, or service to the university. There will be one award for each category and previous awardees for any given category are not eligible for the same award in subsequent years. Nominees can only receive one award across these categories in any given year. Committees of faculty peers will be convened to select the awardees (including previous awardees, when possible). Awardees will receive a monetary prize, distributed for each award category as detailed below, as well as a commemorative plaque, distributed as winners are announced at the celebratory reception.
